ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

TODAY & TOMORROW

APRIL 23—MAY 6, 1983

(Newsbriefs continued)

The ideas of Freud and Jung—the two sometimes opposing giants of modern psychiatry—will be the subject of a symposium entitled, "Freud-Jung Symposium: Psyche and Psychotherapy," on Saturday and Sunday, May 21 and 22, at the Holiday Inn Golden Gateway.

A group of distinguished Freudian and Jungian analysts will present an examination of ideas from traditions concerning the nature of the mind and the conduct of psychotherapy. Pairs of speakers representing each school will discuss a range of issues including concepts of normalcy and psychopathology, the use of dreams in treatment, the nature of transference and countertransference, among others.

The intent of the symposium is to develop clarity about what were the original similarities and contrasts of thought on these topics by both men and how these traditions have expanded over time, been modified and moved into new directions.

Guest speakers will include Joseph B. Wheelwright, MD, professor emeritus of Psychiatry, who worked with Jung and is a founding member of the Jung Institute of San Francisco, and psychotherapy scholar Hans Strupp, PhD, distinguished professor of Psychology, Vanderbilt University.

The symposium is sponsored by Continuing Education in Psychiatry. Program directors are John Steinhelber, PhD, Fariborz Amini, MD, and Crittenden E. Brooker, MD, PhD. Program Coordinator is Aveleen Blumenstock. For further information call x77-256 or x77-554.

IT'S A SWITCH

Office of the Chancellor, Building Project Management Services, previously located at AC 15, has moved to Laundry Storehouse LS 100. The 5343 extension remains the same.

All Moffitt Hospital 9th floor patients and staff have moved to Long Hospital 11th floor. Nursing stations extensions of 1383, 1384 and 5460 remain the same.

The Department of Pharmacy Office and Leslie Z. Benet, chair of the department, have new telephone extensions of 3853, 3854 and 3855, replacing the extensions 5650 and 1069. Calling the old numbers will result in a referral to the campus operator who will give the new extensions. The S 834 location remains the same.

The School of Nursing has established the Lucile P. Leone Distinguished Professorship in International Nursing in honor of its former coordinator of International Students and Visitors who is one of the nursing profession's most influential leaders.

The professorship, endowed by School of Nursing funds, will be awarded annually to a prominent candidate who has made major contributions to international nursing and who "will provide expert guidance to faculty and students in the building of nursing knowledge," according to Dean Margretta Styles.

Each Lucile P. Leone Distinguished Professor will spend one or two quarters in residence at UCSF working with students and faculty in research, education or clinical service pertinent to international issues in health.

The distinguished professorship, accordinl to Styles, is in recognition of Leone's "leadership in the profession, contribution to the development of nursing research, teaching and practice, and her sensitive and devoted attention to international students and visitors in the School of Nursing."

Leone retired from UCSF in 1982, after serving as Regents Lecturer in 1966 and most recently as coordinator for International Students/Visitors for six years. She is best known, however, for her numerous and far-ranging contributions while holding high administrative posts. She is credited with helping establish close ties between the federal government and the country's hospitals and nursing schools. Her efforts led to major improvements in nursing in the years after World War II.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, which will cover the time period May 7-20, will be **Tuesday, April 26, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x1541 or x2557.

(SFGH continued)

THURSDAY 28

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Chest Trauma.* Arthur Thomas, Surg. Rm. 4H40. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Endometrial Cancer.* Carolina Braga, Ob/Gyn. Carr Aud. 12:30 p.m.

FRIDAY 29

BAY AREA HUMAN NUTRITION CENTER SEMINARS: *Health Implications of Dietary Cassava in Human Populations.* Linda Jackson, Anthro., UC-Berkeley. Rm. 4H2. Noon-1:30 p.m.

TUESDAY 3

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *Opportunistic Infections in AIDS.* Constance Wofsy, Med. Carr Aud. 11:30 a.m.

NORTHERN CALIFORNIA OCCUPATIONAL HEALTH CENTER GRAND ROUNDS: *Evaluation of Low Back Pain.* Peter T. Singleton, Jr., Med. Carr Aud. 5:15-6:30 p.m.

THURSDAY 5

NEUROLOGY-NEUROSURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCES: *Blunt & Sharp Forced Trauma.* Boyd Stephens, Path. Rm. 4H40. 8:30 a.m.

FAMILY PRACTICE GRAND ROUNDS: *Office Management of Learning Disorders.* Helen Gofman, Ped., Child Study Unit. Carr Aud. 12:30 p.m.

The Public Employment Relations Board (PERB) has issued the Directed Election Order for UC representational union elections. Elections will be held according to the following schedule for all bargaining units except Non-Academic Senate Instructional, and the Research and Allied Professional units, which will probably occur in the Fall of this year, and the UCSF Skilled Crafts election, which will be held on campus this Spring.

The schedule for the Clerical and Allied Services, Technical, Service, Patient Care Technical, Patient Care Professional, Registered Nurses and Librarians union elections is as follows:

- Friday, May 6: Notice of elections posted;
- Monday, May 9: Sample ballots and notice of elections sent to employee's home address by PERB;
- Monday, May 23: Ballots sent to employee's home address;
- Tuesday, May 31 to Tuesday, June 7: Employees who do not receive a ballot may request one from PERB;

(Continued inside)

UCSF is now offering hepatitis B vaccine on a voluntary basis to faculty, staff and students who work or train in areas which pose a high risk for this infection, according to a memo sent to the campus community from Chancellor Krevans. Individuals who have frequent and direct contact with blood or blood products are at high risk for hepatitis B exposure and should give serious consideration to receiving hepatitis B vaccination, the letter declared.

Hepatitis B is a viral infection caused by hepatitis B virus, which is a major cause of liver disease throughout the world. Immunization against hepatitis B can prevent acute hepatitis and also reduce the risk of sickness and death from chronic active hepatitis, cirrhosis and liver cancer.

The Center for Disease Control has recommended the vaccine for anyone at high risk for hepatitis, including health care workers who regularly are exposed to blood or blood products.

The vaccine, which consists of highly purified, formalin-inactive hepatitis B antigen, can enable healthy persons to achieve high levels of immunity and protection against hepatitis B virus, although, as with any vaccine, a small number of people will not develop immunity even after vaccination. Full immunization requires three doses of vaccine over a six month period. There is no evidence that the vaccine has ever caused hepatitis B or any other disease.

The following campus groups have been identified by Infection Control to be at high risk for exposure to hepatitis B virus:

- Emergency Department, critical care, operating room, post-anesthesia recovery room and delivery room nurses, physicians and paramedical staff;
- nurse anesthetists and anesthesiologists of the Anesthesia Department;
- Laboratory Medicine and Pathology
- Dialysis Unit and Kidney Transplant Unit nurses, physicians and technicians;
- Department personnel who have frequent and direct contact with blood;
- all surgical housestaff and attending physicians;
- dentists and other School of Dentistry staff who come into contact with or handle blood and blood products;
- other campus staff who have frequent and direct contact with blood, blood products, needles or materials contaminated with blood or secretions;
- Environmental Services staff who have frequent and direct contact with blood, blood products, needles or materials contaminated with blood or secretions.

Faculty and staff wishing a screening appointment should contact Employee Health at x1214; students contact Student Health Service at x1281. The vaccine is free to UCSF staff; students will pay $109 and the Health Service will cover the administration costs; faculty will pay $134.

Vol. 9 No. 8, April 23-May 6, 1983

MONDAY

OTOLARYNGOLOGY CLINICAL ROUNDS. A 723. 8-10 a.m.

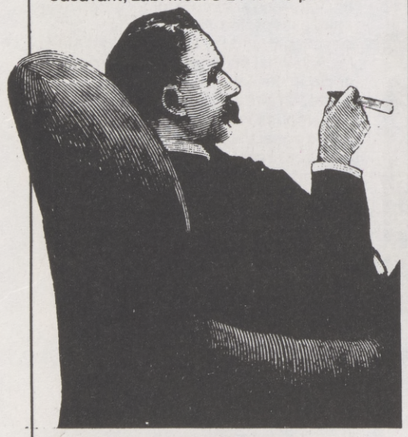
HOSPITALS/CLINICS NEW EMPLOYEE ORIENTATION: *UCSF Policy, Procedures & Benefits.* N 517. 8:30 a.m.-noon. *Introduction to Hospitals & Clinics.* C 130. 1-4 p.m. Registration is required. Veteran employees are urged to attend. For further information call x3022.

EXPERIMENTAL CARDIOVASCULAR PATHOLOGY SEMINAR: *Diet, Lipoproteins & Atherogenesis.* Robert W. Mahley, Gladstone. HSW 508. Noon-1 p.m.

SPECIAL PHYSIOLOGY SEMINAR: *The Vascular Actions of Parathyroid Hormone.* Peter K. T. Pang, Pharmacol. & Therapeutics, Texas Tech., Lubbock. S 758. 1-2 p.m.

LABORATORY MEDICINE CORE CURRICULUM IN LABORATORY MANAGEMENT: *Workload Accounting.* Diana T. Kelly, Lab. Med. S 214. 2-3:30 p.m.

LABORATORY MEDICINE GRAND ROUNDS: *AIDS — An Update on Incidence & Laboratory Findings.* Conrad Casavant, Lab. Med. S 214. 4-5 p.m.



CVRI SEMINARS & CONFERENCES: *Inhaled Tobacco Smoke and Reflex Mechanism Involved in Respiratory Responses.* Jaakko Hartiala, CVRI.S 1364. 4-5:30 p.m.

UROLOGY RADIOLOGY CONFERENCE. Emil A. Tanagho, Urol.; Alphonse J. Palubinskas, Radiol. M 460. 4:30-6 p.m.

26 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Prenatal Diagnosis: New Techniques & New Applications of Old Techniques.* W. Allen Hogge, Ob/Gyn & Repro. Sci. S 1364. 9 a.m.

PERINATAL MORBIDITY & MORTALITY CONFERENCE. M 666. Noon.

BROWN BAG TOURS LECTURE SERIES: *Mixed Messages for Women.* Virginia Ernster, Epid. & Intl. Hlth. Tapes of all talks available for listening in HSE 345, SIMA unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

ANATOMY SEMINAR: *Some Unusual Permeability Properties of Pancreatic Acinar Cells.* Teri Melese, Molec. Biol., UCLA. HSE 1309. Noon.

ORAL BIOLOGY SEMINARS: *Basement Membrane Production by Cultured Microvascular Endothelial Cells.* Randall Kramer, Anat. & Oral Biol. HSW 302. Noon-1 p.m.

EXPERIMENTAL CARDIOVASCULAR PATHOLOGY SEMINAR: *Lipoprotein Receptors & Cholesterol Metabolism.* Thomas L. Innerarity, Gladstone. HSW 508. Noon-1 p.m.

PHYSIOLOGY SEMINARS: *Volume Regulation by Amphiuma Red Blood Cells: The Role of Calcium as a Modulator of the Alkali Metal-Protein Exchange.* Peter M. Cala. Human Physiol., UCD. S 758. 3 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

PEDIATRIC NEUROLOGY ROUNDS. M 666. 4:30 p.m.

UROPHYSIOLOGY CONFERENCE: *Ureteral Physiology.* Emil A. Tanagho, Urol. M 460. 4:30-6 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 5 p.m.

PATHOLOGY GRAND ROUNDS: *Prospects of Oncogene Expression in Normal & Neoplastic Human Tissues.* Werner Rosenau & Michael Bush, Path. HSW 508. 5-6 p.m.

TWILIGHT CONCERT: *David Tanenbaum, classical guitar.* $2 donation. MU lounges. Wine & cheese reception 5 p.m.; concert 5:45 p.m. Reservations required. For further information call x2571.*

28 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *IOL Implants from the Corneal Surgeon's Perspective.* Steven Kramer & John Sorenson, Oph.; Alma Murphy, Surg. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Uveitis.* G. R. O'Connor, PF. 8 a.m.

PEDIATRIC GRAND ROUNDS. S 664. 8:30 a.m.

PEDIATRIC TUMOR BOARD. M 372. 11 a.m.-12:15 p.m.

ONCOLOGY ROUNDS. VAMC, Bldg. 203, 1A-62. 1:30-2:30 p.m.

PROCTOR FOUNDATION RESEARCH SEMINAR: *Lymphocyte Subsets in Conjunctival Smears.* Gary Barth, Oph. Hind Library, 95 Kirkham St. 3:45 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. S 214. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Gallstones.* Bruce F. Scharschmidt, Med. A 455. 4:30 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Journal Club.* L 34. 5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Topic to be announced.* George Leopold, Radiol., UCSD. HSW 303. 5:30-6:30 p.m.

SYMPOSIUM ON TORTURE: *The Medical & Psychological Aspects of Torture.* Glenn Randall, Epid. & Intl. Hlth.; Nick Rizza, Amnesty Intl. Sponsored by Amnesty Intl. Campus Ntwrk. 6-9 p.m. Free.* For further information call 564-3515.

UROLOGY JOURNAL CLUB. Richard A. Schmidt, Urol. & Jack W. McAninch, Urol., SFGH. 317 Parnassus Ave. 6:30 p.m.

29 FRIDAY

PULMONARY PHYSIOLOGY SEMINAR. Presented by Moffitt Pulmonary staff. S 758. 8:10-9:30 a.m.

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CLINICAL CONFERENCE OF THE LPPI CHILD & ADOLESCENT SERVICE: *Divorce in Family Mediation: Rationale, Process & Technique.* Joan Kelly, No. Cal. Mediation Serv. LPPI Aud. 10-11:30 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Sequencing of Biooligomers by Fast Atom Bombardment Mass Spectrometry.* Lutz Grotjahn, Society for Biotech. Res., Braunschweig, Germany. S 1364. 11 a.m.

REPRODUCTIVE BIOLOGY SEMINAR: *Studies of ACTH Receptors on Adipocytes.* Janakiraman Ramachandran, Biochem. & HRL. M 1486. Noon.

EXPERIMENTAL CARDIOVASCULAR PATHOLOGY SEMINAR: *Hepatic Lipoprotein Receptors in Atherosclerotic Lesions.* Thomas L. Innerarity, Gladstone. HSW 508. Noon-1 p.m.

* — Open to the public

UROLOGY RADIOLOGY CONFERENCE. Emil A. Tanagho, Urol.; Alphonse J. Palubinskas, Radiol. M 460. 4:30-6 p.m.

3 TUESDAY

ORAL SURGERY CONFERENCE. C 701. 8 a.m.

COMBINED MODALITY BREAST CANCER CONFERENCE. Surg. Clin. Conf. Rm., 6th fl. A. 8 a.m.

OBSTETRICS/GYNECOLOGY & REPRODUCTIVE SCIENCES GRAND ROUNDS: *Immune Thrombocytopenia Puerpera & Pregnancy.* Risa Kagan, Ob/Gyn. & Repro. Sci. S 1364. 9 a.m.

TOPICS IN MEDICAL ANTHROPOLOGY: *Scientific Creationism: The Controversy Continues.* Eugenie C. Scott, Med. Anthro. HSW 303. Noon-1 p.m.

PULMONARY GRAND ROUNDS: *NMR — Great Expectations.* Richard Webb, Radiol. M 989. Noon.

OBSTETRICS/PEDIATRICS & ANESTHESIOLOGY CONFERENCE. Julian T. Parer, Ob/Gyn; Roderic H. Phibbs, Ped. & CVRI; Sol Shnider, Anes. & Ob/Gyn. M 1486. Noon.

MUSIC PERFORMANCE: *Mariachi Los Caltecas.* (In conjunction with the Chicanos in Health Education's Cinco de Mayo celebration.) MU Gym. Noon. Free.*

INTERNATIONAL FOLK DANCING. Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. Noon-1:30 p.m. Special instructions for beginners 12:10-12:30 p.m.*

SCHOOL OF PHARMACY SEMINAR: *Hormones & Memory: Involvement of Peripheral Adrenergic Systems.* James L. McGaugh, Psychobiol., UCI. HSW 303. 4 p.m.

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *Enzymology of Intracellular Protein Transport.* Jim Rothman, Biochem., Stanford. HSW 302. 4 p.m.

PHYSIOLOGY SEMINAR: *Epithelial Cell Volume Regulation.* Kenneth R. Spring, NIH. S 758. 3 p.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Temperature-Sensitive Mutants.* Jonathan King, Biol., MIT. S 664. 3 p.m.

TRISERVICES CARDIOLOGY CONFERENCE. C 130. 4-5 p.m.

PEDIATRIC NEUROLOGY ROUNDS. M 666. 4:30 p.m.

FACIAL PLASTIC SURGERY CONFERENCE. A 723. 5 p.m.

PATHOLOGY GRAND ROUNDS: *Common & Unusual Variants of Pigmented Nevi.* Richard Sagebiel, Path. & Derm. HSW 508. 5-6 p.m.

TWILIGHT CONCERT: *Flaco Jiminez, Master Norteno accordionist.* $2 donation. (In conjunction with the Chicanos in Health Education as part of Cinco de Mayo celebration.) Beer & chips 5 p.m.; performance 5:30 p.m. Reservations required. For further information call x2571.*

AAUCSF MEETING. Faculty/Alumni House. 6:30 p.m. For further information call x4723.

5 THURSDAY

OCCUPATIONAL MEDICINE GRAND ROUNDS: *Worker Plus.* Muriel Akanatsu & T. J. Walker. A 455. 8-10 a.m.

PEDIATRIC GRAND ROUNDS. S 664. 8:30 a.m.

INMAN & ABBOTT LECTURES MAY 5 & 6

THE FOURTH ANNUAL VERNE T. INMAN LECTURESHIP & THE LEROY C. ABBOTT ORTHOPAEDIC SOCIETY'S 18TH ANNUAL SCIENTIFIC PROGRAM: Robert B. Salter, Ortho. Surg., U Toronto.

INMAN LECTURE: *The Philosophy & Nature of Surgical Research, with Examples.* Cole Hall. 9 a.m.-3:30 p.m. May 5.

ABBOTT LECTURE: *Why Immobilize Joints? (The Current Status of Continuous Passive Motion).* Cole Hall. 8:30 a.m.-4 p.m. May 6.

For reservation information for both lectures call x1166 or x2305.

NEUROLOGY GRAND ROUNDS: *Drug-Induced Neuropathy.* Neil Raskin, Neurol. S 664. 11 a.m.-12:05 p.m.

LABORATORY OF RADIOBIOLOGY & ENVIRONMENTAL HEALTH SEMINAR: *DNA Damage & Repair in 9L Cells Sensitive & Resistant to BCNU.* William Bodell, BTRC, Neurosurg. LR 213. Noon.

REPRODUCTIVE BIOLOGY SEMINAR: *Etiology of Prolactin Secreting Adenomas.* Richard I. Weiner, Ob/Gyn & Repro. Sci. M 1486. Noon.

6 FRIDAY

PEDIATRICS CHIEF OF SERVICE ROUNDS. M 666. 9 a.m.

CONSULTATIVE TUMOR BOARD. M 372. 10:45 a.m.

CLINICAL NEUROLOGY CONFERENCE. A 884. 11 a.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Brain: Specific Drug Delivery.* Nicholas Bodor, Med. Chem., U Florida. S 1364. 11 a.m.

EXPERIMENTAL CARDIOVASCULAR PATHOLOGY SEMINAR: *Origin of Foam Cells in Atherosclerotic Lesions.* Robert E. Pitas, Gladstone. HSW 508. Noon-1 p.m.

NATIONAL NURSES' DAY FILM: *Unsung Healers.* A KQED documentary featuring several UCSF nurses. HSW 303. Noon. Free.

COLE HALL CINEMA: *Lola.* Children under 14 $1.25; UCSF students & MU members $1.75; general $2.25. Cole Hall. 6:30 & 8:45 p.m.*

HEALTH PROMOTION PROGRAMS

Self Care for Your Back. Wed. N 417. Noon-1 p.m.

Smoking Anonymous Group. Tues. LPPI, GO-1. Noon-1 p.m.

Weight Loss Support Group. Tues. U 506. 1-2 p.m.

Body Awareness Techniques. Thurs. LPPI 323. 12:10-1 p.m.

Tai Chi. Thurs. LPPI 323. 5-6 p.m.

Open to all campus employees. For registration information call x3026.

DEVELOPMENT & TRAINING PROGRAMS

Writing Survival Skills. Apr. 26 & 28.

Communicating with Confidence. May 6.

Open to all UCSF employees. To register call x4032.

JOINT UCSF/UC-BERKELEY BIOENGINEERING SEMINAR: *Cochlear Implants.* Michael Merzenich, Otolaryn. & Physiol. 240 Bechtel Engr. Ctr., UC-Berkeley. 4 p.m. For further information call 642-8790.

CLINICAL NUTRITION CONFERENCE: *Use of Fat Emulsions in Nutritional Support.* Gail McSweeney, Clin. Pharm. To schedule cases for discussion and for further information contact Mel Heyman, MD, x2015. 7th fl. Moffitt Solarium. 4 p.m.

4 WEDNESDAY

HAND SURGERY CONFERENCE. SFGH, Rm 4H-40. 7-8 a.m.

DERMATOLOGY GRAND ROUNDS: *Evaluation of Diagnostic Tests in Dermatology.* Alfred Allen, Derm., Letterman. LAIR Aud. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *Hypercalcemia of Malignancy.* Robert Nissenson & Gordon J. Strewler, Med. LPPI Aud. 9 a.m.

PRIMARY CARE LECTURE SERIES: *Drugs in the Elderly.* Ron Finley, Med. & Chesley Herbert, Psychr. A 455. 10 a.m.-noon.

MEDICINE GRAND ROUNDS: *Polymyalgia Rheumatica & Giant Cell Arteritis.* W. Jeffrey Fessel, Med. *Extra-Articular Manifestations of Rheumatic Diseases.* Peter T. Singleton, Jr., Rheum/Immun. Cole Hall. 10:30-noon.

PSYCHIATRY GRAND ROUNDS. HSW 301. 11 a.m.-12:30 p.m.

ANNUAL UCSF FACULTY WIVES LUNCHEON. Honoring Mrs. David S. Saxon. New officers will be elected. Faculty/Alumni House. 11 a.m. For further information contact Mrs. Lloyd Brandborg at 282-6176 or Mrs. Peter Frafton at 587-2457.

BROWN BAG TOURS LECTURE SERIES: *The Anatomy of Hospital Design.* Neil Kellman, Amer. Inst. Architects. Tapes of all talks available for listening in HSE 345, SIMA unit, UCSF Library. For further information call x4394. HSW 303. Noon. Free.*

TWO MILE "FUN RUN." Open to all nursing staff. In celebration of National Nurses' Day, May 6. T-shirts & prizes will be given out. Golden Gate Park. 1-2 p.m. For further information, call x2252.

ANATOMY SEMINAR. HSE 1309. Noon.

EMPERIMENTAL CARDIOVASCULAR PATHOLOGY SEMINAR: *HDL & Reverse Cholesterol Transport.* Robert W. Mahley, Gladstone. Noon-1 p.m.

ORAL BIOLOGY SEMINARS: *Immunological Functions of Pregnancy Hormones.* Pentti Siiteri, Ob/Gyn. HSW 302. Noon-1 p.m.

PHYSIOLOGY SEMINAR: *Epithelial Cell Volume Regulation.* Kenneth R. Spring, NIH. S 758. 3 p.m.

PHARMACEUTICAL CHEMISTRY SEMINAR: *Temperature-Sensitive Mutants.* Jonathan King, Biol., MIT. S 664. 3 p.m.

UCSF MAIMONIDES SOCIETY LECTURE: *Eugenics & Tay-Sachs Screening.* Rabbi Pinchas Lipner, Hebrew Acad., SF. HSW 302. Noon. Free.*

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY/ ONCOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. S 214. 4-6 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

PRIMARY CARE GRAND ROUNDS: *Health Care for Gay Men: A Discussion.* William Owen, private practice; Donald L. Abrams, CRI. A 455. 4:30 p.m.

RADIATION ONCOLOGY GRAND ROUNDS: *Lymphoscintography & the Treatment of Breast Cancer.* Bruce Lulu, Rad. Onc. L 34. 5 p.m.

NEUROSURGERY GRAND ROUNDS. HSW 302. 5:15-6:30 p.m.

RADIOLOGY GRAND ROUNDS: *Interventional Radiology: Past, Present & Future.* Charles Dotter, U Oregon. HSW 303. 5:30-6:30 p.m.

CHILD CARE BENEFIT MAY 5

FRIENDS OF THE CHILD CARE/STUDY CENTER 1983 FUND RAISING BENEFIT. Cocktail/buffet at the home of Chancellor Emeritus & Mrs. Francis A. Sooy. 5:30-7:30 p.m. $100 donation. For ticket information contact Compass Associates, 929-1417.

NEWS BRIEFS

(Union elections continued)

• Thursday, June 16: Ballots due to PERB by noon;
• Friday to Wednesday, June 24 to 29: Ballots counted by PERB.

All election results will be based on a majority of those voting. The Service Employees International Union (SEIU) and the California State Employees Association (CSEA) have dropped out so most elections will be between AFSCME and "no representation."

For further information contact the Labor Relations Department at x3905.

The Hospitals Auxiliary Board of Directors voted at their March meeting to change the organization's name to "UC Hospitals Associates, San Francisco," it was announced by Faracita Wyatt, president.

The UCSF Committee on Animal Care now includes a member of the public, according to Academic Vice Chancellor David J. Ramsay. He is Sherman Chickering, an attorney who is former president of the California Fish and Game Commission and former chairman of the California Wildlife Conservation Board.

According to Vice Chancellor Ramsay, the committee has active plans for expanding its scope to give it a structure parallel to the campus' Committee on Human Research, with the emphasis on continuing our efforts to ensure the humane care and treatment of animals used in research on this campus.

The present committee is chaired by George Chierici, professor of Growth and Development and the acting director of the Center for Craniofacial Anomalies, School of Dentistry. It consists of eight UCSF researchers, a student, and an Animal Care Facility staff representative.

In a letter to State Senator Barry Keene with regard to Senate Bill 883, a bill which was heard by the Senate Judiciary Committee last week, Chancellor J. R. Krevans declared: "Our campus is extremely concerned about the humane use of all animals in our research program. All projects in which animals will be used are reviewed, first by clinical veterinarians on our staff to assure that appropriate analgesic and anesthetic techniques are being employed, and then by a review committee."

A new system of communication of official campus news by TV, "UCSF TV News Update," will start on campus Monday, April 25. It will give administrative and personnel news, the calendar of the day, menus of the day, job openings and other items. It will give the campus the ability to rapidly respond to questions about such current situations of interest as the state and university budget.

The pilot program will begin with three TV monitors located in the Medical Sciences lobby, the second floor of Medical Sciences and the Millberry Union cafeteria. It will be handled by existing staff of both the News and Public Information Services Department and EMR. Because EMR's extensive technology already is in place for both cable TV and microwave broadcasting, there will be minimum cost.

"UCSF TV News Update" will supplement already existing print methods of communication with the campus such as the *Today & Tomorrow* calendar, *UCSF Journal*, internal memos and posters.

The program is under the direction of Janet Norton and Peter Ng and coordinated by Allen Balderson.

For further information contact Janet Norton at x2557. For news items call x1541.

Smokers between the ages of 21 and 55 who want to break the habit are invited to participate in the UCSF Habit Abatement Clinic's free stop-smoking program.

Participants at the UCSF clinic attend intensive sessions during the first three weeks of treatment. Their progress is followed for the next year with sessions on a regular but less intensive schedule. Participants pay a refundable fee of $75, whether or not they succeed in quitting.

Supported by the National Institute of Drug Abuse, the clinic's overall success rate is usually 90 percent after the first three weeks of treatment, according to Sharon Hall, PhD, director of the clinic.

The Habit Abatement Clinic is now accepting applicants excluding pregnant women, persons with heart or lung disease, stomach ulcers or high blood pressure. At the present time there is no waiting list. Day and evening sessions are available. For further information call x77-453.

K. Peter Walter, PhD, recently-appointed assistant professor of Biochemistry and Biophysics, has been named one of 19 Searle Scholars for 1983. This is the second Searle Award for UCSF in two years, both recipients from Biochemistry. The prestigious awards, the fourth annual, are administered by the Chicago Community Trust and include a three-year, $157,000 grant to support the research of newly-established investigators.

Walter, currently an assistant professor of Cell Biology at Rockefeller University, and the other scholars were chosen from among 130 applicants from around the country for their demonstrated potential for doing innovative research in the fields of medicine, biology or chemistry.

Walter's research involves the way in which cells separate proteins to be secreted from those to remain inside the cell. He was the first to find a molecule in the cell, called the signal recognition particle (SRP), that stops synthesis of proteins to be secreted and brings them to a site where the protein will be able to cross the cellular membrane.

Last year he made another surprising finding — that the SRP is not a protein, but a complex of RNA and protein. After his arrival at UCSF in June, Walter will continue his work characterizing the piece of RNA and its function. He also will continue his study of other portions of secreted proteins, specifically those which appear to carry instructions for their secretion.

The Searle Scholars Program was set up in 1980 from a trust fund established by John G. Searle, who was president until the time of his death in 1978 of the research-based pharmaceutical company, G. D. Searle & Co. of Skokie, Ill. There are currently 47 scholars across the country supported by more than $7 million from the program.

National Nurses' Day will be celebrated on campus Friday, May 6. The purpose of the day, designated last year by President Reagan, is to heighten public awareness of the quality and scope of the nursing profession, the largest group of health care providers in the nation.

National Nurses' Day also is a time to recognize the broad range of innovative nursing care provided at UCSF and the ways in which the practice continues to change and advance, according to Linda Purves, nurse recruiter for Nursing Services.

Scheduled events to salute UCSF nurses include:
• Wednesday, May 4: Two-mile "fun run" for all nursing staff in Golden Gate Park from 1 to 2 p.m. T-shirts and other prizes will be given out.
• Friday, May 6: KQED documentary film entitled "Unsung Healers," featuring several UCSF nurses, to be shown in HSW 303 at noon.
• Displays will be posted on bulletin boards, and nurse appreciation buttons and refreshments will be given out at all nursing stations.

In addition, on Monday, May 9, Nursing Services is sponsoring a reception for minority nurses in Room M 666 at 3:30 p.m. For further information on all of the above events call x2252.

A new computer facility for graduate nursing students will officially open on Monday, May 9, from 2 to 5 p.m. in Room 735 in the School of Nursing building with a celebration the entire campus community is invited to attend.

This computer classroom is equipped with both microcomputers and interactive terminals which provide expanded research training for graduate nursing students in data management and analysis, development of computer-assisted instruction in nursing content areas, and access to information systems for research in management of nursing facilities and for improving patient care.

Other members of the campus community are invited to utilize these microcomputers for developing formal course instruction and short workshops. For further information contact William Holzemer, PhD, at x2763.

UC Academic Vice President William R. Frazer has advised the nine UC campus chancellors that, until further notice, students will not be required by the University to sign a statement of compliance with Selective Service registration. Further, Frazer indicated, no student will be denied federal financial aid as a result of not registering for the draft or not signing a statement of compliance.

The Federal government recently was enjoined by the US District Court from enforcing the Solomon Amendment, the newly enacted federal regulation that prohibits the University from providing federal financial aid to non-registrants for the draft. UC's General Counsel has advised the University that, as long as the Federal government is prohibited from enforcing the Solomon Amendment, the University should not ask students for statements of compliance with draft registration laws nor should it deny aid to non-complying students.

The final report of the Special Committee to Develop Campus Procedures for Implementing the University's Policy on Sexual Harassment has been distributed to members of the Chancellor's Council.

Chaired by Lewis Nelson, coordinator of Affirmative Action, the committee was requested by Chancellor Emeritus Sooy to develop campus procedures for handling complaints of sexual harassment and to identify methods for educating members of the campus community about their rights and responsibilities.

A meeting has been scheduled with campus officials to discuss possible mechanisms for implementing the committee's recommendations. A copy of the report is available to all interested employees in the Library Administration Office under the heading "Sexual Harassment".

HONORS & AWARDS

Julius R. Krevans, Chancellor: One of thirteen prominent figures in the fields of medicine, science, higher education and engineering, elected to membership in the Society of Scholars at Johns Hopkins. All were postdoctoral fellows at Hopkins.

A. L. Burlingame, professor, Chemistry & Pharmaceutical Chemistry, School of Pharmacy: Honorary membership, Japanese Society for Medical Mass Spectrometry, for "his eminent scientific contributions to medical mass spectrometry."

William F. Hoyt, professor, Ophthalmology & Neurosurgery: Honorary degree, Doctor of Medicine, Karolinska Institute, Stockholm.

Lloyd H. Smith, Jr., professor & chair, Medicine: One of 13 physicians to receive American College of Physicians Mastership for "outstanding contributions to medicine." Of the 54,000 ACP members — doctors of internal medicine, related specialists and physicians-in-training — only about 150 hold the rank of ACP Master.

Robert Langridge, professor, Pharmaceutical Chemistry, Biochemistry & Biophysics & Medical Information Sciences: 1983 Guggenheim Fellowship for his work in "heuristic programming and interactive three-dimensional computer graphics in studies of the interactions of proteins and DNA."

APPOINTMENTS

William K. Hamilton: Appointed vice dean and associate dean for Clinical and Professional Affairs, School of Medicine, effective July 1. In his new position, he will continue his involvement with housestaff affairs and assume the role of acting dean in the absence of Dean Schmid. In addition, he will assume expanded responsibilities for all matters concerning clinical affairs in the School of Medicine and the school's relations with local and regional professional organizations, both of which are areas of fundamental importance to the health of the campus. Hamilton has been professor and chair of the Department of Anesthesia since he came to UCSF in 1967 and associate dean for Postdoctoral Affairs since 1978. Sol Shnider will be acting chair of Anesthesia as of July 1.

Sheldon Wolff: Appointed director, Laboratory of Radiobiology & Environmental Health. He has been professor, Cytogenetics in the departments of Anatomy and Radiology since 1966.

Robert K. Ockner: Appointed chief of Gastroenterology and director of the Liver Center, replacing Rudi Schmid, who was appointed School of Medicine dean on March 1. Ockner, professor of Medicine, came to UCSF in 1968. He serves as the editor of *Gastroenterology*, the most prestigious journal in the field, and is the recipient of an NIH Research Career Development Award and the Western Gastroenterology Research Prize in 1980.

Thomas W. Gwyn: Appointed assistant chancellor, Public Service Programs. He has been director, Office of Public Service Programs since 1975.

Michela Reichman: Appointed assistant chancellor, Communications. She has been director, News & Public Information Services since 1975 and special assistant to the Chancellor since 1979.

PUBLICATIONS

Bertram G. Katzung, professor, Pharmacology; research associate, Computer Center: Editor, *Basic and Clinical Pharmacology* (Lange Publications, Nov., 1982). There are 59 contributors including Katzung, mostly from UCSF.

Howard Schatz, associate clinical professor, Ophthalmology: Author, *Essential Fluorescein Angiography: A Compendium of 100 Classic Cases* (Pacific Medical Press, San Anselmo, CA, 1982).

IN MEMORIAM

Kenneth Gordon Scott, professor emeritus, Experimental Radiology. Renowned for his research in nuclear medicine and cancer, he was director of the UCSF Radioactivity Research Center and research associate at UC-Berkeley's Crocker Laboratory from 1951 to 1971. He won the Navy Commendation for his work in the 1946 Bikini Atoll atomic tests during which he designed and operated the system of measuring radiation and fallout by means of a string of gold markers. He also won the 1970 Distinguished Scientist Award of the California sections of the Society of Nuclear Medicine for his "outstanding contribution to nuclear medicine." He is the author of the syllabus for UCSF's bioradiology course and the inventor of an easy cancer detection kit, capable of measuring the effects of cancer cures by the uptake of rubidium in red blood cells.

Joseph H. D. Roger, a '15 graduate of the School of Medicine. He was on the staffs of St. Mary's Hospital and French Hospital as a physician and surgeon for some 35 years.
